

2020 Centaur R/C Club Field Rules

1. **Absolutely NO** alcohol products or illegal drugs are allowed on the club property at ANY time.
2. All club members shall act as club Safety officers and have the right and responsibility to see that other fliers act in a safe and responsible manner.
3. All flying activities shall conform to current AMA regulations.
4. All fliers must be current with AMA membership and coverage as well as FAA registration.
5. Guests are permitted to fly only if they have an AMA membership card and are accompanied by a current club member (this excludes sanctioned events). The accompanying club member is fully responsible for that guests' actions. Guests may visit/fly up to 3 times without a club membership.
6. All flight equipment will be kept in the designated pit area.
7. There is to be NO flying over the pit area, spectator area or the parking areas.
8. Only pilots and spotters are allowed at or beyond the flight line fence while actively flying.
9. NO person is to physically touch ANY aircraft while in flight. This include drones.
10. All gasoline or glow fuel powered engines must have approved mufflers.
11. Any FPV (First Person View) flying is done, the pilot MUST be on the flight line and have a spotter present at all times during the flight. The spotter must have a visual line of sight with the aircraft at all times.
12. Even though 2.4GHz radio systems are most common, any pilots who are flying using older technology radio systems such as AM, FM or PCM.. You must still use the frequency pin control board. The pin is to remain in your possession at all times and your AMA is to be put in the respective frequency pin slot. No transmitter shall be powered on without the pin in your possession.
13. ALL MEMBERS are responsible for enforcement of these rules.
14. These rules are subject to change, to be added to or modified as the club officers see fit.
